

The background of the cover is a photograph of Taunton High School. The school is a brick building with a large entrance. The words "TAUNTON HIGH SCHOOL" are written in white capital letters across the top of the brick facade. Below the name is a large, dark, rectangular opening, possibly a covered walkway or a large window. In the foreground, a large group of students is walking away from the camera towards the school entrance. They are wearing various casual clothing like jackets, jeans, and backpacks. The overall tone of the photograph is slightly muted, typical of older film photography.

Dedication

The Class of 1999 dedicates its yearbook to

Mr. and Mrs. Steve and Carol Matthews

Together Mr. and Mrs. Matthews made a decision to dedicate their lives to education about 26 years ago. They have been experiencing the joys and trials of teaching ever since. In this noble profession, both of these wonderful people have impacted many lives. Their love of people and love of teaching are the perfect mix for Taunton High School. As much as Mr. and Mrs. Matthews love us, we love them just as much. We thank you both for your love and energy throughout the years.

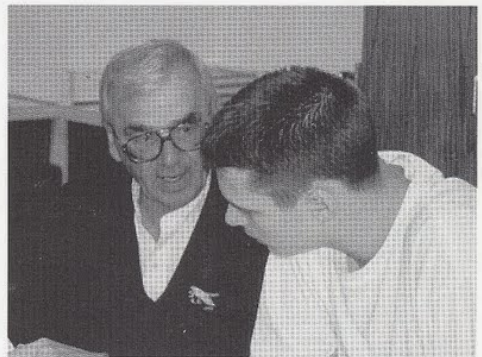

Thank you

Words of Wisdom

It has been an adventure these past four years for us all. It was an adventure of new ideas, new concepts and new experiences. We came here fresh out of middle school, naive, innocent to the world. During our stay here at Taunton High we have been exposed to the world around us. We have experienced our first jobs, been in our first true romances and experienced being independent for the first time. We will leave here with open minds and open hearts, willing to take on the world. We are as fierce as our namesake, the Tigers, and ready to live our lives. Let us not forget, however, that even though we have learned so much these past years, we are perpetual learners. Every life experience, every event, we as individuals will learn from it. So if you are frightened of the future and what it may hold, look back here at these years and see what you have accomplished. In these accomplishments, you will find a way to carry on past college into the real world. From all of us on the Yearbook Staff, we wish you the best of luck in the years to come.

By Mark A. Guzman

The Last Four Years

*Four years ago we came here greatly afraid of what was placed before us,
To take such a large step into what seemed like an unknown world.
Reluctantly, we went along with their new ways,
Though we soon found they were not as difficult to adapt to as we had
assumed.*

*As the days went on we began to grow
In so many ways it is difficult to express.
We were broadening our lives in so many directions.
We were learning how to deal with the outside world.*

*Though we do have to admit there were a few times more difficult than others.
Still, we attempted to excel in every task we were given.
Not once did we allow the thought of giving up wander into our heads.
We chose to continue on, to see what the future had in store for us.*

*The great memories we have will never be forgotten.
Nor will the things we have been taught by our many teachers.
We have conquered the difficult goals that were set for us,
And we have realized that we have many talents that were unknown to us
before.*

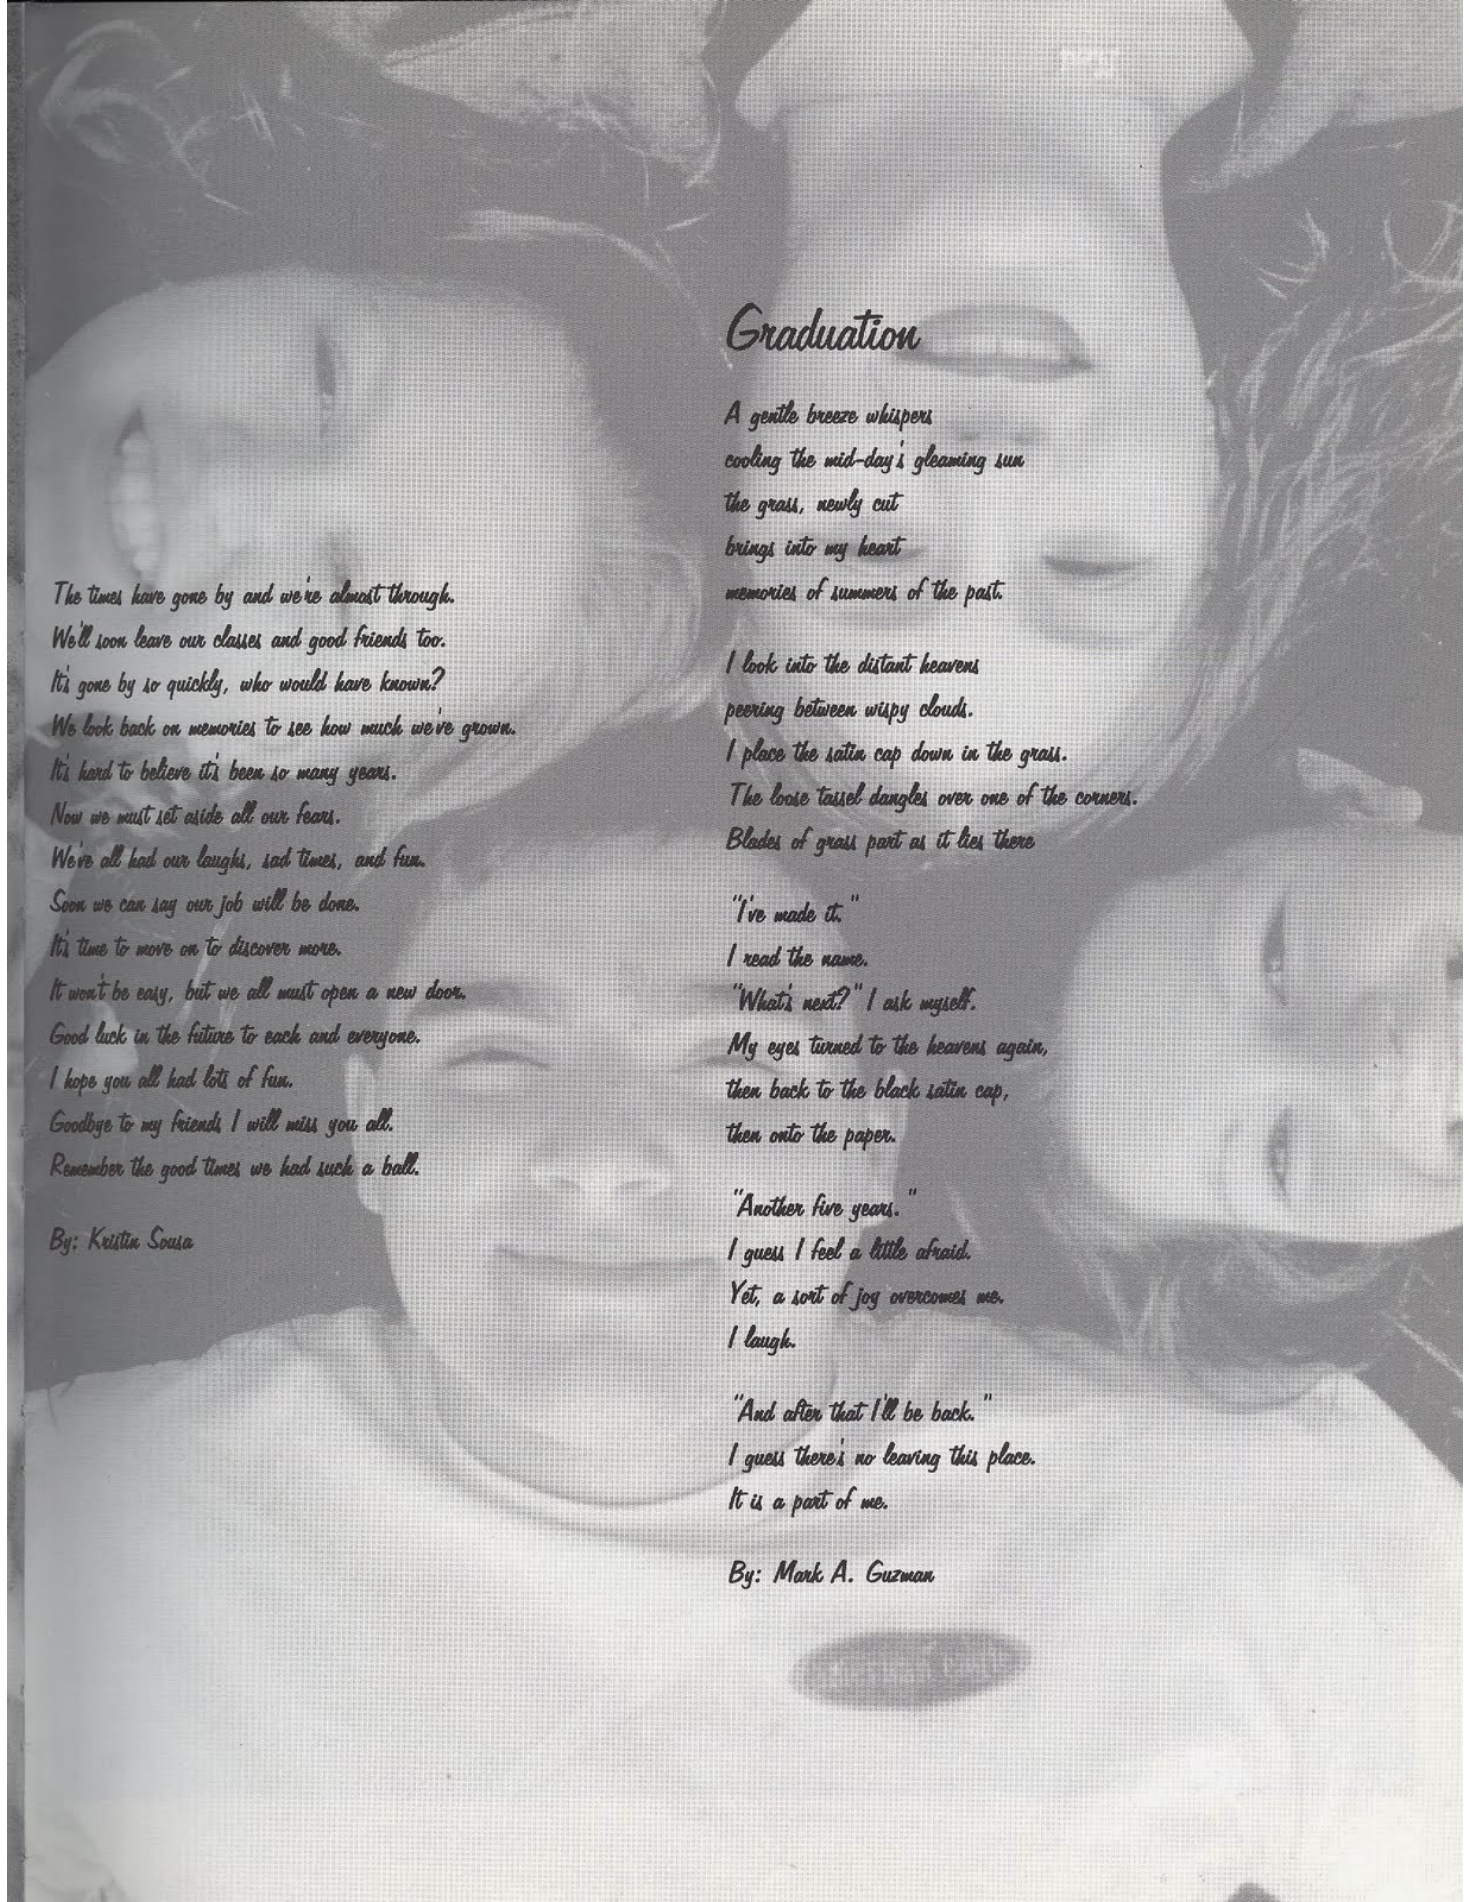

*And as we prepare ourselves to move on,
We look back at the last four years thankful that
We were fortunate enough to be influenced
By such a great place.*

By: Courtney English

The Class of 1999

*We shared our fears
We shared our dreams
We shared our tears
We shared our screams
We've stuck it through when things were bad.
We stayed together and we'll never be sad.
We share our memories forever in each heart.
We are graduating this year but we'll never be apart.
The class of '99 to be remembered as years go by.
On our graduation day we'll never say goodbye.*

By: Nikki Franco

The times have gone by and we're almost through.
We'll soon leave our classes and good friends too.
It's gone by so quickly, who would have known?
We look back on memories to see how much we've grown.
It's hard to believe it's been so many years.
Now we must set aside all our fears.
We've all had our laughs, sad times, and fun.
Soon we can say our job will be done.
It's time to move on to discover more.
It won't be easy, but we all must open a new door.
Good luck in the future to each and everyone.
I hope you all had lots of fun.
Goodbye to my friends I will miss you all.
Remember the good times we had such a ball.

Graduation

A gentle breeze whispers
cooling the mid-day's gleaming sun
the grass, newly cut
brings into my heart
memories of summers of the past.

I look into the distant heavens
peering between wispy clouds.
I place the satin cap down in the grass.
The loose tassel dangles over one of the corners.
Blades of grass part as it lies there

"I've made it."

I read the name.

"What's next?" I ask myself.

My eyes turned to the heavens again,
then back to the black satin cap,
then onto the paper.

"Another five years."

I guess I feel a little afraid.

Yet, a sort of joy overcomes me.

I laugh.

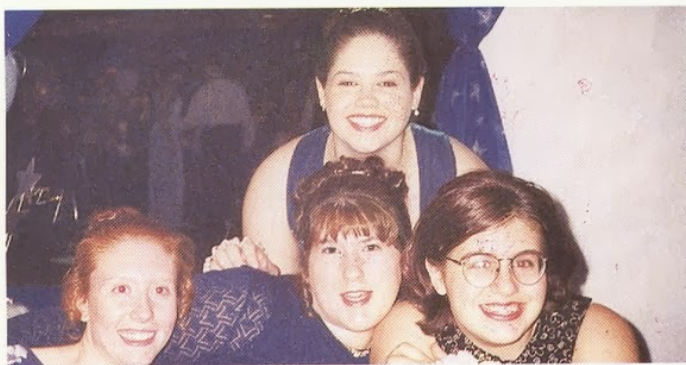

"And after that I'll be back."

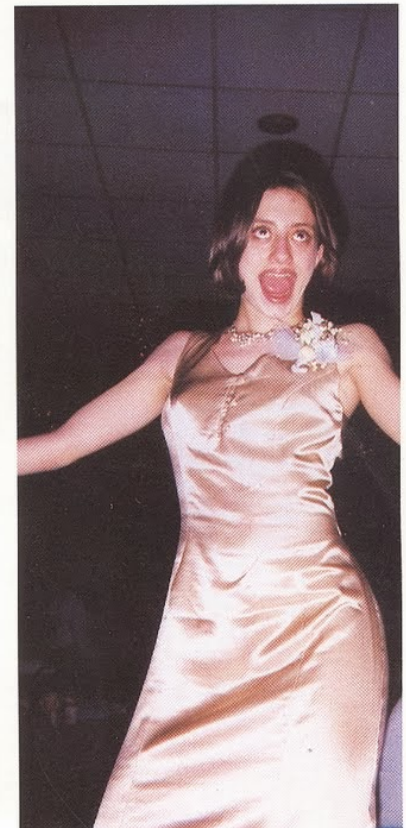

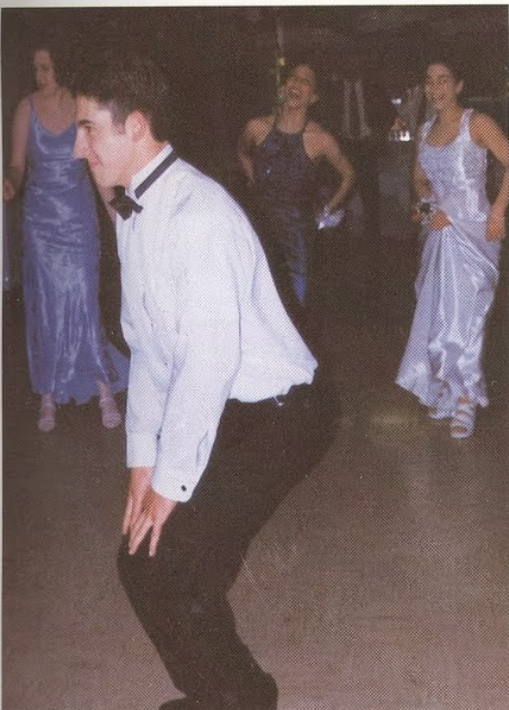

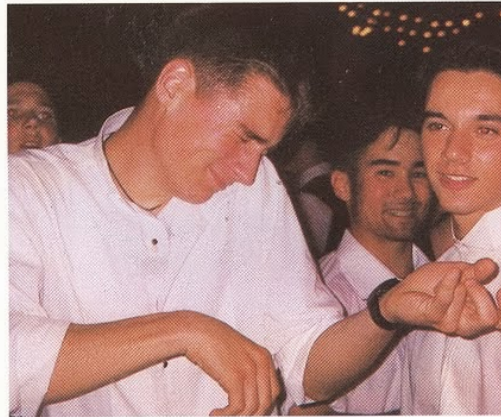

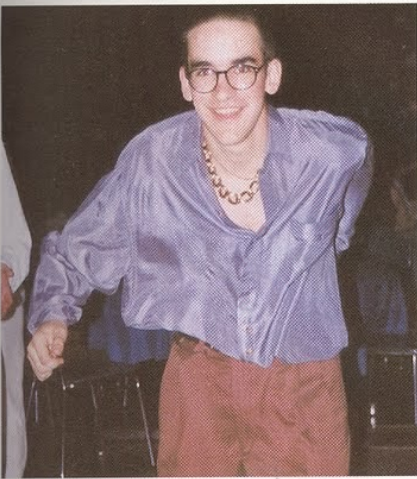

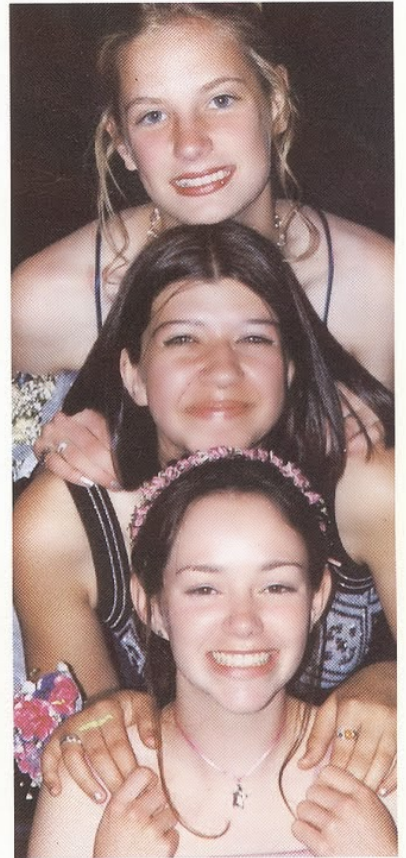

I guess there's no leaving this place.

It is a part of me.

We congratulate the members of the Class of 1999 and their families. We are certain that each of you made sacrifices in order to reach this important goal. You have completed twelve years of school and have learned the skills required to be successful life-long learners. Many of you have participated in advanced placement courses, community service opportunities, Tech Prep programs, and internships. You will be going on to four and two year colleges, technical schools, military service and full-time employment. In each instance you will continue to enhance your skills and expand your knowledge base. We know you are prepared to meet the challenges you will face in the future. We wish you every success in your future endeavors.

To Alison,
Good luck in the future and don't forget us when you're at the top.
And don't forget, no matter what you do or how high you climb, I'll always be there.
Love, Jay

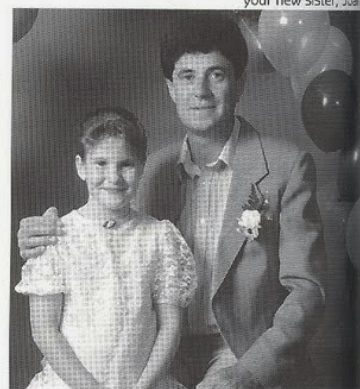

Dear Alison,
We are **so very proud of you** and wish you all the best in the future.
May god bless you with many years of health and happiness.
"YOU ARE OUR SUNSHINE"
We love you very much, Mom and Dad.

Dear Alison,
I've always wanted a sister; someone to share with and have fun with.
Someone to watch over and watch grow up. You've become my sister and I am **so** proud of you. Your intelligence guarantees success in school, your heart guarantees success in life.
Love always,
your new sister, Joann

To Alison,
I've done my best to lead you by example. I've tried to show you the right way to do things. I've thrown you advice in hopes of making decisions easier for you. After so many years of leadership, I've come to realize that it was me who was learning from you. Love, Nelson
